DEATH OF MRS. WILLIAM IVES.

Aged and Respected Member of Burroughs Family Dies in Stamford.

Stamford, Jan. 8.—Surrounded by her loving relatives, Mrs. Emma Burroughs Ives passed away on Friday morning at two o'clock after a brief illness.

She had not been years in a robust condition but was able to be around among her friends and to attend to the duties that fell to her lot to fulfill, but on Monday afternoon she was taken with an acute attack from which she failed to rally and finally passed from this life.

She was a daughter, and only child of William and Lydia Burroughs of Roxbury where she made her home until her marriage with William Ives, whose death preceded hers by a number of years.

Two children were born to them, a son who died in his infancy and a daughter, Kate, wife of William E. Walker, with whom Mrs. Ives lived for fifteen years until her death.

Another son, adopted in his childhood, Harlan Ives, also survives her. She was a member in her youth of the Methodist Episcopal church of Roxbury, and on her removal to Stamford joined the Methodist church here by letter. She was always a devoted member and always to be found among the leaders of the work of the church, a faithful and dependable member. She was of a sweet disposition and delighted in making the surroundings of those near her pleasant and enjoyable. Her strong Christian character placed her naturally among other associates of that nature and it was her happiness to be so connected.

Well-known among Stamford residents, her death comes as a sorrow to

all her acquaintances and the bereaved children. One grandchild, Kenneth, son of William and Kate Walker, was especially beloved by Mrs. Ives and she took great pride in the fine type of manhood that he growing into. The funeral services will be held at the Methodist Episcopal church on Monday morning, January 9th, at 10:45 o'clock, following the arrival of the morning train, and will be conducted by her pastor, Rev. Mr. Coddington.

The interment will be made in the Stamford cemetery.

They have many friends who will extend congratulations.

Banquet for Newly-Weds.

A very pleasant social time was had at the close of a meeting of the local lodge, at the lodge parlors on Friday evening last, when that organization gave a banquet to Mr. and Mrs. S. A. Tenlyck in honor of their recent marriage. Bride and groom were both taken completely by surprise. A fine supper was served to which all did ample justice, after which Edward Roberts, acting as toastmaster, acquainted the guests with the usual general manner. Mrs. S. A. Tenlyck, representing in behalf of the lodge, of which both Mr. and Mrs. Tenlyck are members, presented to them a fine, wider arm chair, upholstered in tapestry. Bride and groom each responded in well-chosen words assuring their friends of their heartfelt appreciation of the gift and of their kindness.

William H. Lyon Dies.

William H. Lyon, a resident of South Hill, town of Maryland, about three miles from this village, died at his home Friday evening, aged 81 years. Mr. Lyon, the cause of whose death was pneumonia, had been confined to his bed and practically helpless for the past three years.

Mr. Lyon was a kind father and a good friend and neighbor. He was well-known throughout Otsego and Delaware counties, where in years past he was always an exhibitor of fine sheep at the local fairs. The funeral will be held Tuesday at 11 a. m. at his late home. Rev. L. E. Bronson of the Methodist Episcopal church, of which he was a member, will officiate and interment will be in the cemetery at Parnassusville.

Mr. Lyon is survived by three daughters, Clara and Mary at home, who had tenderly cared for their father during his illness; and Mrs. Haswell Brundage of Sidney; two sisters, Mrs. George W. Postwick of this village and Mrs. Cora Palmer of South Hill; and three brothers, James Lyon and Seth J. Lyon of South Hill and Merritt Lyon of Bloomville.

He was a member of the 14th New York Volunteers, serving with valor in the Civil War. The cause of death was heart trouble. There are the same prices for three percent milk with the usual 15 cents for freight and interest.

BUSINESS IS BETTER.

Various indications of continued im-
provement in business are to be noted,
among them the growth of output in
various industrial lines, says the
Cleveland Financial Review of last Satur-
day.

Recessions in the price of agricul-
tural commodities, notably wheat and
cotton, are, however, seriously regard-
ed as being indicative of less satis-
factory conditions for the farmer. This
makes the problem of financing an
adequate acreage for the new year im-
portant, and lays a large burden of
responsibility upon the country bank.
The export situation has changed but
little within the past month. Obvi-
ously calls for financing meth-
ods at the earliest possible moment.
Curtailed of the price of crude oil
during the past week hurt oil stocks,
but was from other points of view a
desirable change, inasmuch as fuel has
been abnormally high. A parallel re-
duction in coal prices is foreseen by
many and will greatly help manu-
facturing conditions in a number of
lines. The railroad situation has im-
proved in at least a corresponding de-
gree with other business, showing
about a 4 percent net increase in
1921. With a reasonable measure
of conservation on the part of the
government, transportation will ap-
parently succeed in reaching a stable
condition sooner than the larger man-
ufacturing enterprises. Notwithstand-
ing that a relatively unsatisfactory
business year in steel is foreseen by
some experts it is to be expected that
there will be steady upward progress
as is indicated by recent developments
in the industry and by the general
shortage of supply.

The most important development in
the money market now to be awaited
seems to be the new funding and
financial plan of the treasury depart-
ment, which should make its appear-
ance shortly. This plan will provide
for the maturities falling due during
the coming months and the rate of
interest which is offered will probably
be in an important sense a pace-maker
for the investment and money market
in general. The continued firmness
in the price of bonds and the rela-
tively small range of movements in
most branches of the market point to
the belief that conditions there have
become fairly fixed. Not only the
presence of a large and continuous
supply of government interest bearing
obligations, but also the better oppor-
tunities which are likely to be opened
abroad militate against the belief that
extremely cheap money is to be ex-
pected as an incident of the early fu-
ture, except perhaps from time to
time, for very short periods; never-
theless, with a federal reserve ratio
of 71.1 percent, as shown this week,
and with the comparatively small de-
mand for bank accommodations, it
can be taken for granted that the sup-
ply for a long time ahead will be
adequate to meet all requirements, and
that high rates are a thing of the past.

A GLAD DAY FOR IRELAND.

Unquestionably Saturday was a glad
day for Ireland. After centuries of
agitation, after conflict and bloodshed,
a basis of settlement between Erin
and her sister Isle of Britain was
reached. It was agreed that from this
time forward there shall be an end
to fighting and to the controversy
which for so long has distressed the
people on either shore of the Irish
sea. It was determined that Erin
should have autonomy in as full a
sense as is advisable for the welfare
either of Ireland or England—as full
as that which exists in any of the Do-
minions. With her own parliament,
her own laws, her own independent
government, with practically the only
link between her and Great Britain the
Governor General whom the King will
appoint. It does not appear there is
any longer reason for continuing the
conflict which so long has been waged.

The vote for ratification is distinct-
ly a triumph for the better elements
of the Irish people; and it is a rebuff
to DeValera and his associates, who in
demanding from England sovereignty of
even the last tie between the two
islands asked more than could have
been expected—something, moreover,
which it insisted upon would have re-
sulted in renewed bloodshed.
There is excellent reason to believe
and every reason to hope, that DeVal-
era will not be able to summon to his
assistance any considerable number of
representative men in his program for
further agitation. The country has in
the period of the truce had time to
meditate on the conditions which must
inevitably prevail should the number be
broken off; and it is inevitable that
any great number of the Irish people
would consent to further fighting.

CLIPPED FROM OTHER PAPERS

No Paper Marks For Us.

There will be general satisfaction at
the assurance given by Washington
officials that German debtors will not
be permitted to discharge their pre-
war obligations to Americans in de-
preciated paper marks. A number of
creditors here have recently received
drafts for the sums due them, with
the statement that unless they were
cashed within 30 days the debtors
would get rid of their debts by ship-
ping marks.
"This attempt is so obviously in-
equitable that it occasions some sur-
prise that it should ever have been
made. When the debts were contract-
ed the mark was valued at 25 cents;
it is now hovering around half a cent.
Were the Washington government to
insist in this request obligations
amounting to \$50,000,000 would be
discharged with little more than \$1,
000,000.

One of the greatest evils attendant
upon the war has been the virtual
canceling of debts in certain Euro-
pean countries brought about by the
depreciation of legal tenders by the
excessive issues of paper in money. It
is quite obvious that this could not
permit our own citizens to be caught
in this mesh. The German obligations
must be repaid, not in an equal num-
ber of marks, but in equal value
measured in gold. (New York Sun.)

Killings and Conference.

Senator Edge, replying to some
criticism of the armistice conference,
asks the question, "Why not join in
the acclaim?"
"Why not, indeed? There is ac-
claim and well justified. The con-
ference was called with excellent in-
tent, excellently stated. The Presi-
dent's action was applauded all over
the world; and certainly the con-
ference has been conducted
with dignity and much success.
If nothing else stood as a credit—
but a good deal does—the fact that
the world's post-war situation stands
more clearly revealed now and is
more accurately appraised than be-
fore would entitle the conference to
the highest respect. (Washington
Star.)

Worth It, of Course.

"Listen!" exclaimed Mr. Popp. "I
think I hear the newboys yelling

"I wouldn't be a bit surprised," re-
plied his wife calmly. "I telephoned

His Unfortunate Smile.

the baby generally puts up a mighty

Please Form at the Right.

Talk around town, in not-too-public
places, insists, probably, conceivably,
that Henry Cabot Lodge will not be
a candidate for re-election; that he
will be appointed ambassador to the
court of St. James.

If this were so, we don't know pre-
cisely what would be done about
George Harvey, but we have no doubt
there are many earnest folks who
could make a variety of enthusiastic
suggestions.

If Mr. Lodge should decide to de-
cline a re-election, who would volun-
teer, or be drafted, to seek the place?
The line will please form at the
right. (Boston Herald.)

The Wrong Product.

ly "seeking security." But she is get-
ting insecurity. (Minneapolis Jour-
nal.)

An Opposition View.

Under the Miller administration
there is no passing the buck at Al-
bany. Nothing is lost in the shuffle
between the executive offices and the
legislature. The governor is on the
job and he is doing his work. What-
ever the work itself is pleasing or
displeasing, it is work that can be
judged on its merits or its demerits.
There is something definite to gauge
it by and there can be no dispute as
to where the responsibility lies. Who-
ever opposes it can know clearly and
precisely what it is that he is op-
posing. (New York World.)

has been so long and successfully en-
gaged. His work here is under the
auspices of the Board of Promotion
of the Northern Baptist convention.

Following the church service, Mr.
Bawden addressed the children dur-
ing the Sunday school hour, portray-
ing with enthusiasm the life work of
Rev. George Clough, the great Bap-
tist missionary to the Telegues. In
the evening he spoke before a large
congregation at the River street Bap-
tist church, his address being largely
on similar lines to that of the morn-
ing.

This morning Mr. Bawden leaves
for Birmingham, where he will ad-
dress the pastors conference this af-
ternoon and preach in one of the
churches of the city in the evening.

LIBEL ACTION STARTED

ATTORNEYS SHELTON CLOSE AND

JOHN G. JOHNSON SUE NEW
YORK TIMES FOR \$2,500 EACH.

Separate suits instituted by each at-
torney on contention that article
published in New York Newspaper
impeached their personal and legal
reputation—Summons Has Been
Served.

Sheldon H. Close and John G. John-
son, well known attorneys of this city,
have commenced proceedings against
the New York Times company for
civil libel, it being their contention
that during December, 1921, the New
York Times, a newspaper published
by that corporation, printed an article
casting reflections upon the manner in
which the attorneys conducted the de-
fense of George Brazee, who recently
paid the death penalty for the murder
of Anna Van Patten at Elk Creek, Or-
ego county, on August 18, 1920.

A separate suit for \$25,000 has been
instituted by each of the attorneys,
who are being represented in the ac-
tions by Attorney Lincoln L. Kellogg
of this city. The summons and com-
plaint were served on the secretary
of the New York Times company on
January 4, but no answer has as yet
been received. The case would or-
dinarily come to trial in Otsego county
at a term of supreme court.

The facts in the case are these: At
the October, 1920, session of the su-
preme court, then sitting at Cooper-
stown, Justice Tuthill assigned Messrs.
Close and Johnson to defend Brazee,
then under indictment on the murder
charge. They, with James J. Byard
Jr. of Cooperstown, conducted the case
throughout the trial, which ended on
March 14, 1921, a verdict of murder
in the first degree being returned. The
case was carried to the court of ap-
peals and, that court sustaining the
decision of the trial court, a plea for
executive clemency was made to Gov-
ernor Miller.

During December, 1921, the New
York Times published, in a conspicu-
ous place in the paper, an article in
which it stated that Johnson and
Close had neglected the interests of
Brazee during the trial. It also stat-

ed that "after this" Brazee retained
Mr. Byard, "who fought to the last
day to save the life of his client."

As a matter of fact, Byard was one
of the attorneys for the defense
throughout the trial.

The contention of the complainants
is that the article cast a reflection up-
on their ability and integrity in the
defense of their client. Naturally
jealous of personal and legal reputa-
tion, Johnson and Close have institut-
ed the suits, the progress of which
will be followed with keen interest.

Our Great Semi-Annual Underselling Demonstration
Commencing Tuesday, January 10th--Continuing Balance of The Month

IT'S HERE

This is a work that we do thoroughly, for we must whip lines into shape, so we take all the odd merchandise, perfectly reliable and satisfactory goods, but broken in color range or sizes,—some things that we will not reorder, others are lines that are too big; then there is the merchandise that is most seasonable that is slated for quick departure, and upon all of these things we put special prices for quick and decisive selling. This advertisement tells a part of the story. A walk around the store will reveal ten times as many others, equally desirable, but which are in limited quantities, so we refrain from mentioning them,—wishing you to come and see for yourself.

Why Banks Grow.
Sometime ago a concern interested in bank advertising wanted to find out why people selected certain banks with which to do their banking. They sent out several hundred questionnaires directed to patrons of banks in various localities. Seventy-five per cent of the replies gave the reason "good service and courteous treatment on the part of employees and officials."

This is why the Citizens' National bank has grown one hundred per cent in five years.

CAMPAIN PLANS ANNOUNCED

Community Athletic Association Will Start Intensive Membership Drive After Meeting on January 25—Baseball Manager May Be Named at That Time.

That the Community association is to enjoy a membership and sphere of activity this year that will far surpass that of last season is indicated by the preliminary plans announced by President H. H. Marx for the membership drive to be undertaken following the association meeting of January 25. The plans are dependent upon a clean up of the delinquent membership obligations of last year but it is hoped that all back dues will be paid by the 25th and that the organization can start off with a clean slate at that time.

The membership plan provides for a campaign organization along military lines. Dr. Marx will be the colonel in charge and he will have two lieutenant colonels under him. Each lieutenant colonel will supervise the work of four majors. Under each major there will be two captains and each captain will have a team of four men. The two divisions headed by the lieutenant colonels will be pitted against each other in a membership contest.

The plan thus calls for the activity of 50 men, selected because of their general interest in community affairs and their special interest in baseball. Each worker from Colonel Marx down will be asked to pledge himself to membership and to secure the applications of ten other men. If the plans work out there will be no difficulty in securing the thousand members desired.

Several managers and many players are under consideration for a team this summer that will make the glories of last season's Giants pale into insignificance. President Marx has a line on one candidate for the management who is known by reputation to every fan in the city by reason of his stellar work on one of the most famous major league teams in the history of the game. It is hoped to bring the man to the city for the January 25th meeting at which time plans for the season will be fully discussed.

UNION MEETING CALLED

RAILROAD BROTHERHOOD MEN CALLED FOR CONFERENCE TUESDAY NIGHT.

General Chairman on D. and H. System to Address Gathering at Municipal Hall—Billed They Will Advise Men to "Go Slow" in Applying for Group Insurance.

Local chairmen of the five big brotherhoods of railroad employees engaged in the train service have issued a call for a union meeting to be held at Municipal hall tomorrow evening at 7:30 o'clock, at which all members of the five brotherhoods are urged to be present. The general chairman of the system, George C. Paine and L. O. LaGrange of this city and Martin Degnon, E. W. Bouse and G. O. Johnson, are to be present and address the men.

When the meeting was first called it was assumed that the general chairmen had matters in connection with a proposed reduction in wages of a revision of working conditions to present to the men and these matters had been discussed. It is hinted, however, that the subject to be discussed more especially is the recent offer of the company to the men in its employ of group insurance, under the plan which was outlined at some length in a recent issue of The Star, through a message received from the Associated Press.

It is suggested that the officials of the brotherhoods do not look with favor upon the proposal of the company and are disposed to advise the men to look carefully into the proposal and to consider well before applying for policies under the proposition as made.

It is learned upon good authority that the proposal was not submitted to the union chairmen nor have they been given opportunity to learn all of the conditions under which the insurance is to be written. They have received the company's proposal and are reported to look anxiously upon the proposal generally.

One of the employees of the company in discussing the offer of the company the other day declared that each of the organization provided insurance for its members and it cannot be cancelled at will. It provides for them in case of disability. He insisted that he did not care for a policy that could be cancelled whenever the company so decided. Such decision might be made just at a time when it was most needed and when other insurance could not be obtained.

While no authoritative statement could be secured relative to the subjects to be discussed at the meeting and while it is more than probable that the present status of any prospects of a further effort to reduce wages or to change working conditions will be outlined by the men, it is anticipated that the air will be released from the care of insurance special and the brakes applied.

INGERHAM SHOW ROOMS OPEN

Display of Durant Cars Attracts Many to Store of A. O. Ingerham Motor Car Company Saturday.

The formal opening of the show rooms of the A. O. Ingerham Motor Car company at 21 Broad street attracted a throng of people to the store Saturday. The store, newly painted and decorated and attractively decorated with ferns and other greenery, presented a most pleasing appearance. The display of Durant cars attracted naturally the most attention and many favorable comments were heard concerning the pleasing lines and look of durability of the cars. Only a limited line of four-cylinder cars were on display but Mr. Ingerham hopes before the month is over to be able to show a complete line of fours and next month to add the six-cylinder models. Cigars for the gentlemen and flowers for the ladies were distributed and the utmost courtesy was shown every visitor.

SUFFERS BROKEN ANKLE.

Charles Lane Catches Foot Between Ice Cakes at Goodyear Lake Friday.

Charles Lane, who resides near Otisco, is in the Fox Memorial hospital suffering from a fracture of one of the right ankle sustained Friday afternoon while assisting in the ice harvest at Goodyear lake. The fracture has been reduced and there is every indication of a quick recovery.

Mr. Lane, who is a regular employee of the Oneonta Ice and Fuel company, was in charge of the packing in one of the icehouses rooms. In some manner his foot became jammed between two large cakes of ice with a resultant fracture of the ankle. The severity of the extent of his injury, the man courageously worked from 7 o'clock, when the accident occurred, until night, during the evening he began to suffer extreme pain and consulted Dr. D. H. Mills, who diagnosed the injury and advised that he go to the hospital.

WILL BUILD COUNTRY HOME

E. W. Elmore Purchases 20-Acre Tract Near Wilber Park and Will Later Erect Modern Home Thereon.

One of the most interesting real estate deals transacted in recent years is that by which E. W. Elmore has acquired possession of 20 acres of land extending between the eastern boundary of Wilber park and the upper ends of Gardner place and Draper street. It is Mr. Elmore's intention to erect upon his property a future date a thoroughly modern home.

The tract includes a section of woodland and pasture land and is so situated as to command an unexcelled view of practically every section of the city and surrounding country. Mr. Elmore is undecided as to just when the will build and has as yet prepared no plans, but it is understood that he intends to erect a modern and spacious home, together with stables and other buildings necessary to a country establishment.

The buildings will be located above the reservoir water line and hence it will be necessary for Mr. Elmore to have his own water supply. An excellent spring together with the land controlling it is situated on the property and will supply a quantity of pure water sufficient for all needs. Entrance to the property will be made by way of Draper street and thence through the woods in a wide circle made necessary to avoid a steep grade.

A considerable portion of the drive will have to be constructed by Mr. Elmore and the entire plot will be so built out and improved as to provide attractive surroundings for the house. It is understood that most of the parcels included in the tract were purchased from S. B. Gardner, Lynn Gardner, George I. Wilber, George B. Baird and M. C. Hemstreet.

Dr. Russell Confined to Home.

Rev. Dr. J. C. Russell, pastor of the First Presbyterian church, was unable to occupy his pulpit yesterday morning, being confined to the manse by a cold. Secretary Lange had charge of the service, and Prof. A. M. Curtis read selections from Gilbert Parker's "The Stone." This book is based on the Bible story of the destruction of Sodom and Gomorrah and is a timely "book-sermon."

Dr. Russell expects to be about again in a few days, as the cold is responding to treatment. He will be one of the speakers at the Men's club banquet next Friday evening.

Births.

Born, Sunday, January 8, to Prof. and Mrs. J. Stanley Cobb of State College, Pa., an eight-pound son, Miss Cobb was formerly Miss Elsie M. Johnson. She is the daughter of Mr. and Mrs. S. L. Johnson, 23 Maple street.

I will be at Ronan's store today to collect Maccabee dues. Marion McFee, collector. advt. 11

How Uncle Sam Spends Your Money in Conducting Your Business

OUR COSTLY NEGLIGENCE

"Coordination" is a tired, haggard, nervous wreck of a word that was newly worked to death at Washington during the early days of the war. It was the first of the dollar-a-year words to come forward to do war work, and it was worn to a frazzle. I hate to drag the poor word thing out from the quiet rest in my dictionary where it has been resting and recuperating, but I must say that this lack of coordination, lack of organization, duplication, inefficiency, waste, and haphazard hodge-podge structure of the national government machine is no secret to those at Washington who run and manage it for us, and who are even more directly responsible than we are for the condition into which it has fallen.

I submit pieces of avoidance and confession from both Democrats and Republicans. It is not a matter of politics. It is a matter of proved and confessed negligence on the part of the men we have hired to run the machine, and have kept year after year in places of trust and power and responsibility. They haven't kept up the part. The form of organization is grossly inadequate. The morale of the working force is badly impaired, as I have set forth at length in previous articles. We have paid the price for this, grossly and hugely, in money and in poor service. This has been costly negligence on our part.

I said I had confessions. Here they are. Read, Senator, Republican and a Senator from Utah, speaking:

The administrative branches of the government have undergone no fundamental change since the organization was devised by Alexander Hamilton.

No change, however, in the world could have gone on as ours has done, and paid the bills involved in our wasteful methods of administration. We have been able to do it because this country has had a surplus of wealth, and money.

But the war has brought us at last to realize that these will not last always. The need of a more survey of the whole situation is now before us.

There is endless duplication of work among different departments, and the government is a waste of money.

When he said these things, Mr. Snoot was urging a concrete proposal to bring about the reformation so badly needed.

And now Franklin D. Roosevelt, for seven years assistant secretary of the navy and recently the Democratic candidate for vice president:

The entire system of relationship which exists between congress and the executive departments is fundamentally wrong. Let me illustrate: I made an offer on spring to the appropriations committee of both house and senate, telling them that I would tomorrow discharge 15 per cent of the employees of the navy department if they, the committees, would give complete authority to take one-half of the salaries of the employees so discharged and add it to the salaries of the other 85 per cent of the employees still left in the department.

After seven years doing this in an executive position, I cannot help the conclusion that our governmental methods are cumbersome and wasteful. The first improvement must come in what is called the source of the money.

This must come from congress. We need also a reorganization and redistribution of the work of the government.

There can only come a change, working in accord with itself and with the executive, will discuss the whole question simultaneously and not merely piecemeal.

Well, there you are! A Republican who has been in the legislative branch of the government for seventeen years, and a Democrat who has been in the executive branch for seven years, both telling the same story of how badly the national business is managed.

The odd thing about it is that our agents and representatives at Washington who let this waste and inefficiency run on, year after year, pay no penalty. We pay the price in the tune of millions and billions—literally that much. And the condition will endure until we make a real roar about it.

Congress increasingly shakes its head over the situation and brings in various proposals of reform, and says how wrong it all is; but lacking a lively, informed public pressure, nothing gets done.

Effect of Ease.

Experts say that American voters are taller than they were 40 years ago and that athletes is responsible. Only a small proportion of the women of the country indulge in athletics. They will be just as easy to prove that the increase in height is due to less exercise than formerly.

Surely the brown and the washboard are effective muscle producers as the modern housekeeper does not as a rule have to work as hard as did her mother and grandmother.—Philadelphia Evening Ledger.

BOOSTS ARMY MUSIC

Pershing Orders School Established in Washington.

Walter Damrosch Has Pledged Assistance in Work of Organization—Plan to Make Army Music as Good as Best.

Washington, Jan. 8.—The army music school will compare with that of the best orchestras and bands of the country. Popular music will be supplemented by the classical masterpieces and a superb and orchestra will be created from army musicians.

General Pershing already has ordered the establishment here of the army music school, and Walter Damrosch, conductor of the New York Symphony orchestra, has pledged his assistance in the work of organization.

Both are determined, through the school, to elevate music in the army.

The first move to better army music was made by General Pershing soon after he took over the office of chief of staff. One of his first actions was to transfer the school from Fort Jay, New York, and direct that it be reorganized as a "superband, comparable only to the splendid band which was organized in France."

Mr. Damrosch at first was opposed to the removal of the school from New York, believing students would have better advantages to hear good music and study it in New York than in Washington. It was Mr. Damrosch who organized the famous "Pershing's Own" at Chantam, headquarters of the American expeditionary forces, which won great distinction among the military bands of the allied armies, and later was sent to tour the United States during one of the Liberty loan campaigns.

First evidences of the success of the school were exhibited recently when the students were used to welcome the various armament conference delegations. The school band was called upon to furnish music for the receptions at the Union station and attracted a perfection with which it played.

PAYS RENT WITH HORSESHOES

Odd English Custom Re-enacted Each Year by Tenant of Plot of Ground in Strand.

London.—One of the odd customs for which England is famous was seen the other day, when two hundred of faggots, a hundred, six horseshoes and sixty and one horse shoe nails were given to an agent of King George V as "rent in kind" for a small plot of land in the Strand, where a large original street, and another piece of land in the Strand, the king's remembrance room on the rent on behalf of the crown. In the year 1235 a tournament was being held in a field where the law courts now stand, and during the tournament a knight's armor gave way. A smith repaired it so well that the king gave him the right to erect a forge on the field, stipulating that the annual rent should be six horseshoes and sixty and one nails. The rent has been so paid every year down to the present day.

Sirens on railroad trains in France will warn against all collisions, according to a report from Paris. The sirens are the same ones used to warn residents of the French capital of airplane attacks during the World war.
